PROJECTS

reCYCLE | E-Commerce App

Jan 2023 - Feb 2023

UX/UI Designer - CareerFoundry Project

Problem: Cyclists that want to buy and sell used gears often has to go to various different stores to find what they're looking for.

Process phases: Branding, user flow, wireframes, user testing and feedback analysis, final UI design, mockups

Solution: Designed a responsive web app for cycling enthusiasts that are looking for an easy shopping and selling experience.

noods | Recipe App

Nov 2022 - Dec 2022

UX/UI Designer - CareerFoundry Project

Problem: While there are many recipe apps available in the market today, there isn't one dedicated to Asian cuisines that offer easy-to-follow recipes that taste authentic.

Process phases: User research, user personas, user flows, rapid prototyping, interactive paper prototype, user testing (usability test, preference test), wireframes, mood board, responsive design, style guide, mockups

Solution: Designed a responsive web app for home cooks that enjoy authentic Asian cuisines. The app will help eliminate the hassle of endlessly looking on the web for the right recipe for an Asian dish.
